HEAVY EQUIPMENT OPERATOR

Delivered by Delaware Technical Community College

Delaware Tech's Heavy Equipment Operator Program is a truly unique, hands-on comprehensive program designed to fill the current needs of local employers. The program was developed with industry experts in Delaware utilizing the nationally recognized NCCER curriculum. Students are taught how to perform on the job site as skilled craftsman as well as how to operate heavy equipment through both classroom instruction, simulator training, and "in-the-seat" equipment operation.

Learn how to operate a:

- Backhoe
- Excavator
- Dozer
- Skid Steer
- Loader

This program will be offered in a hybrid format.

Class and lab sessions will meet
M-F from 1:00-5:00PM

Start date: January 19, 2021
